

SHAPE SHIFTING with Jane Sassaman

CODE: JS 304J

DATE: 5 to 6 July

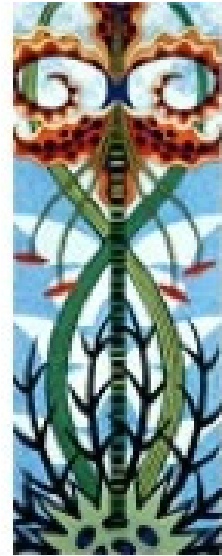

Duration: 2 day

Skill level; intermediate to advanced

Sewing Machine: Basic ZIG ZAG

We all have innate preferences for certain colors, shapes and proportions, as well as natural attractions to certain symbols, images and icons. In this class we will study photographs and slides of a variety of historic and ethnic decorative objects to help uncover some of the motifs and symbols which may have powerful personal resonance. For example, you may be drawn to Buddhist mandalas or Mexican milagros. You may be attracted to the design of an Inuit mask or the pattern from an Art Nouveau vase or the shape of an Egyptian chair or even Australian Indigenous Art.

Each student will select historic motifs, shapes and images which they will manipulate and reinterpret into a unique statement in fabric and thread. By lifting an image from one time and place to another the student will begin to exercise the power to recognize their personal touch stones to imagination. The aim of the workshop is to nurture your intuitive skills *Students should have a desire to develop their own design language and unique visual symbols, plus an interest in the history of decorative design.*
